Two Door Models.
A World of Design Choices.

models
9100 & 9600

Wayne® Dalton

These are no ordinary garage doors.

The front panels of Models 9100 & 9600 are made with high-tensile steel finished with an easy-to-maintain, baked-on polyester finish. Inside, top and bottom horizontal struts add rigidity and result in smoother operation. The foamed-in-place insulation delivers better sound control and dent resistance.

model 9600

All garage doors don't have to look alike. The **Model 9600** has four panel styles to complement your home's architecture. In addition to traditional Colonial styling, you may also choose an elongated Ranch style, Contemporary or the fashionable Sonoma.

model 9100

Here's a door with excellent insulating ability to control energy costs and shield your family from street noise. The Wayne Dalton **Model 9100** garage door is a terrific choice for performance and value. Four distinctive panel options are available.
