

# Classic™ 314-317

The traditional quality of wood adds a touch of elegance

Model 316 hemlock garage door

Accent your home with the beauty and richness of a Classic wood door. Our tradition of incomparable craftsmanship, blended with modern technology, provides the finest wood doors available. Choose a beautiful, elegant Classic wood door for your home...there simply isn't a better wood door on the market.

*Model 315 cedar*

# Classic™ 314-317

## Raised panel styling – The luxurious look of nature's own materials.

### Workmanship and Quality Beyond Comparison

Classic doors are designed and hand-crafted to meet your highest expectations. We've combined precision construction methods with today's technology in creating an exceptional high quality wood door:

- 1 Each section is constructed of 1 3/8-inch thick finger-jointed wood rails and stiles. Solid one-piece rails are optional.
- 2 Raised panels are a nominal 3/4-inch thick real wood and locked into place. Model 316 has edge-glued hemlock panels; Model 317 has solid rails. Carved top-section windows are available in a variety of designs.
- 3 Model 314 is an upgrade to edge-glued cedar panels. Model 315 is an upgrade to cedar panels, stiles and solid rails.
- 4 Mortise and tenon joints, waterproof glued and steel-pinned, provide lasting strength.
- 5 Shiplap style connections between sections create a weathertight fit, and assist smooth operation along with rust-resistant, hot-dipped galvanized steel tracks and hardware.

#### 316 hemlock panel

Kiln-dried West Coast hemlock, sitka spruce, or similar wood, with edge glued hemlock raised panels.

### Elegant, Real-Wood Frame Windows (Optional)

Magnify the beauty of your CLASSIC wood door with wood framed windows in seven finely scaled designs. Not only do these windows allow natural daylight into your garage, they also meet the demands of the most discriminating eye for detail. Enhanced with these designer windows, the Classic wood door represents the pinnacle of the craftsman's efforts.
